Property Description

Ideally positioned on Barbados' Platinum Coast, Ocean Grove's view and location can never be replicated. An architectural masterpiece, a beacon across the sea, it offers 3 bespoke luxury residences. Named for its organic yet structural form fusing with the environment, Ocean Grove is located in the heart of Barbados's most cosmopolitan area, a first in its class on the Platinum Coast, located 21 steps from Gibbs Bay in St Peter, Barbados.

Ocean Grove offers 3 five-bedroom all-suite residences meticulously designed and furnished offering laid-back sophistication and approachable luxury, while drawing inspiration from award-winning interior and architectural design destinations such as Australia, the Greek islands, Ibiza, and St Barthelemy.

Breezy coastal meets contemporary luxury at Ocean Grove. Seamlessly integrated open plan living encourages effortless entertaining and relaxation, with ocean or water views as the idyllic backdrop. Each home floats amongst water at every intersection, from the front entrance waterfall, 2,412 sq ft saltwater pool with sunken pool lounge, and fire pit, to a 12' internal waterfall as well as a private master rooftop pool with stunning sea views.

Ocean Grove was designed to afford the maximum possible space. There are extensive bedrooms, numerous bathrooms, and inventive layouts inside and out. The design offers the utmost seclusion, spectacular views, and the perfect balance of indoor/ outdoor living.

The breathtaking natural splendor of Gibbs Bay is residence to some of Barbados's most luxurious villas. The fully serviced boutique and customized hospitality operation ultimately provides our homeowners with a fully serviced lifestyle. This is whether you are in residence or seeking a return on your investment when not.

Lifestyle services include:

- Reservations, concierge, and hospitality management
- Chef, butler, and housekeeping teams
- Security, property maintenance, and beach chair set-up teams
- Farm to fork collaborations

Barbados pushes toward its 2030 goal of energy generation and supply through non carbon emitting sources. Grove Group is committed to join on this journey.

Each SMART home includes photovoltaic cells, two electric vehicles and an off-grid electrical set-up lithium battery. Day-to-day maintenance products are made from natural ingredients. The swimming pools include salt-based filtration and cleaning systems. This reduces the dependence on chemicals.

About Grove Group

Grove Group Developments is the evolution of a lifetime of construction, development, and hospitality experience. The project profile and approach to delivery is different because their priorities look beyond the traditional. Quite simply, they look at new ways to mix luxury with living, creating sensible designs for real people. Resilient yet sophisticated features, designed for extraordinary lifestyles. Bringing over 20 years' experience, Grove Group is responsible for site acquisition, design, planning, construction, delivery, and hospitality management. Over the past 7 years, they have developed a track record developing top-quality, value turn-key homes, under their exclusive management post completion with successful projects cementing their position in Barbados's desirable West Coast property market.
